

One-to-one advice on funding applications and self-employment for artists in Hamburg

In autumn, the time for funding applications for the performing arts in Hamburg begins again! You have a great project idea, but it is difficult for you to write an application for funding? Maybe we can support you!

We have received a grant from the Behörde für Kultur und Medien Hamburg. With this we can accompany five people on five dates on their way to a finished application. Topics of the consultation are, among others, funding applications and self-employment as an artist. In the 1:1 talks we will discuss with you how to write down your project idea well, how to create a budget and how to do the paperwork after your project.

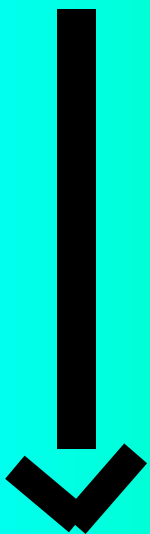

1:1 is aimed at people who face hurdles in their everyday life or in society, for example due to experiences of discrimination, flight and/or migration history or a disability. We advise artists who find it particularly difficult to write applications for these or similar reasons.

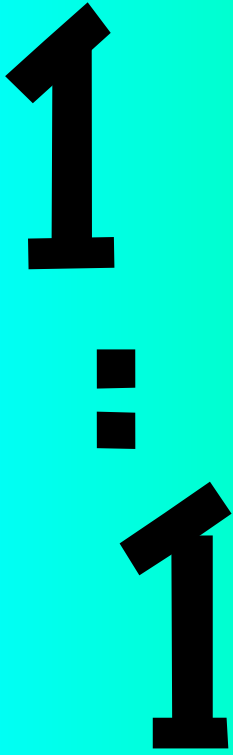

PK3000 is a producer's collective: we have a lot of experience with applications and the very different tasks involved in performing arts projects.

If you would like to get One-to-one advice, send us your application by April 14, 2023.

Please fill out our form. You can also answer the questions in an audio recording or as a video. Mail your answers to lzu1@pk3000.de

You will then receive a message from us soon to let you know if the consultation will work out!

In cooperation with

Dachverband freie darstellende Künste Hamburg e. V.
and Studio Marshmallow
